

# Water Treatment for the FOOD & BEVERAGE INDUSTRY

Food & Beverage manufacturers are constantly striving to optimize production while achieving the highest levels of quality and compliance. ChemTreat's water management strategies improve the efficiency of plant operations, protect employees and the environment, and ultimately make our customers more competitive.

ChemTreat continues to exceed customer expectations because we have a simple strategy: provide superior service with a long-term view, use the most current technology, and employ the best people. We leverage this winning formula to take on the most difficult water treatment problems and succeed where others fail.

# The Best People

## Developing Partnerships, Delivering Peace of Mind

- Global network of experienced field engineers with a vested interest in your success
- Application Technology team with unparalleled industry expertise and problem-solving capability
- R&D group that specializes in the development of customized solutions
- Full-service analytical lab that offers comprehensive testing and quick turnaround

# Asset Protection

## Ensuring Security of Your People, Assets, and Brand

- Extending asset life with programs that efficiently utilize water and energy resources
- Increasing productivity through the reduction of downtime for cleaning and maintenance
- Optimizing system performance while complying with processing standards
- Maximizing energy efficiency through improved heat transfer & control systems

# Sustainable Solutions

## Products & Services That Improve Performance While Protecting Natural Resources

- Reduced energy usage through customized system optimization
- Engineered solutions to ensure the safety of your valued employees
- Green product options that reduce environmental footprint
- Proven strategies for effective water and wastewater reuse

# Continuous Innovation

## Advanced Technology For Complex Systems

- Customized products designed for unique water & equipment needs
- Web-based water treatment communication and control for 24/7 system monitoring
- Eco-friendly, high performance cooling technology
- Enterprise-level data management for measuring quality and conformance

# ChemTreat's Enhanced Offerings

## Utility Treatment

- Breakthrough green solutions for advanced process cooling water and steam systems
- Phosphate-free programs to reduce environmental impact
- Chemicals to increase thermal efficiency and provide water and energy savings

## Process Treatment

- Corrosion inhibitors to minimize equipment corrosion and fouling
- Cleaners & sanitizers to eliminate unwanted microbiological growth
- Products that help maximize production line speeds to generate highest ROI

## Automation and Control

- Custom-designed monitoring and control packages to optimize system efficiency and performance
- Fluorescence monitoring technology for traced treatment programs
- Web-enabled data management to provide real-time reporting and analysis

## Wastewater Treatment

- Wastewater reuse programs to reduce plant discharge and makeup
- Data management systems for regulatory support and quality audits
- Chemical handling programs to help reduce waste, ensure safety, and protect employees
