

# CONVEYOR applications

ChemTreat combines superior service and exceptional products to provide the complete solution to your conveyor lubricant needs. We pride ourselves on having the most experienced field engineers in the industry. ChemTreat can deliver a full line of products that exceed the performance of current industry lubricants. This unique combination is a critical component of our rapidly expanding portfolio of solutions for the Food & Beverage industry.

Through the expert application of conveyor lubricants, ChemTreat field engineers create long-term value for our customers.

**ENERGY**  
savings

Lower energy costs resulting from the improved lubrication, reducing electric consumption for drive motors

**WATER**  
savings

Reduced water consumption resulting from lower lubricant application rates & less off-line cleaning

**CHEMICAL**  
savings

Lower lubrication cost due to improved adhesion & component chemistry yield longer production runs between applications

**INCREASED**  
productivity

Higher production efficiencies from reduced drag on bottles, less cleaning downtime & better adhesion of materials to conveyors

**IMPROVED**  
plant sanitation

Higher level of sanitation & odor control through the use of advanced antimicrobial technology

#### *Product Details*

- Biodegradable
- Tetra Pak® & Pure-Pak® safe
- Hard water-tolerant synthetic formulation products
- Superior performance running glass, PET, plastic & aluminum packages at higher efficiencies on both stainless steel & plastic conveyors
